GRANTS PASS, OREGON, U. S. A.

Specials!

You'll want these in your gardening

THIS LIST IS A QUICKIE! WE'VE BEEN SO RUSHED WITH SUMMER HARVEST, FALL CROPS AND A MUCH EXPANDED PRODUCTION SCHEDULE THAT TIME HAS COUGHT UP WITH US. WE ARE THEREFORE SENDING THIS LIST TO YOU QUICKLY TO INFORM YOU OF GARDEN MATERIALS - PLANTS, SEEDS AND BULBS - THAT ARE NOW OR SOON TO BECOME AVAILABLE AND ON WHICH ORDERS SHOULD BE ENTERED NOW WHILE STOCKS ARE IN BEST SUPPLY. WE WILL SHIP WHEN WANTED WITHIN THE LIMITATIONS OF SUPPLY AND SEASON. A FULL SCALE EDITION OF THE USUAL HARROLD'S ADVENTURES IN GARDENING, FOR GENERAL MAILING WILL BE READY BEFORE LONG AND YOUR COPY WILL BE SENT AS SOON AS READY. MAY WE SUGGEST ORDERING MATERIAL FROM THIS LIST NOW!

Hardy Plants

These hardy, flowering plants may be set now in many localities. Along the coast of Ore., Wash. and Calif., west of the mountains. Throughout So. Calif., much of Ariz., N. Mex. and Texas it is advisable to plant now and the plants will be well established by spring. The Pansies, Violas and some of the other kinds should be grown as winter blooming plants in southern localities. In other climates not mentioned, the plants are an ideal size for setting in cold frames or they may be potted in peat or clay pots and kept in a cool, protected place over winter. This will assure extra fine plants for early spring setting and make sure of them being available when you are ready to plant. In spite of greatly expanded production again this year, we still expect many items to be in short supply by spring.

PANSY PLANTS

PANSIES AND VIOLAS are a major specialty of ours and have been for more than half a century. In seeds of these we catalogue and supply the largest selection of varieties and colors of any single seedsman in the world. Many of these varieties are our own originations that we have developed over the past 59 years. The plants offered below are the most popular and will afford a completely satisfying selection.

MIXED COLOR PANSIES: the most popular way to grow Pansies. It is the bright, widely varied colors and markings of these Giant Pansies that has made them so very popular. You'll be amazed at the huge size of these and their wide color range.

HARROLD'S AMERICAN GIANTS: Largest size in the "Fancy" Giant Type. These have heavy center blotch and rich, deep colors. 20 plants \$1.00; 100 plants \$4.00.

HARROLD'S PEDIGREED GIANT ART-SHADES: This "Exhibition" type produces the largest blooms of any known Pansy. We have had them to 5 inches across in the seed production fields. Colors bright and varied with delicate, rare shades, center blotch small and sometimes none at all. 20 plants \$1.00; 100 plants \$4.00.

HARROLD'S PEDIGREED GIANTS: A very outstanding and well established Giant flowered variety. Very wide range of colors and markings. 25 plants \$1.00; 100 plants \$3.40. **SEEDS:** either of the above three, \$1.50 per packet.

SEPARATE COLOR PANSIES: These are used for formal beds or where a straight color effect is desired. They are very attractive. These plants not yet bloomed and grown from seeds, they probably will be subject to a few off colors, but usually they they come 80% or more true. Blooms not quite as large as same colors in the mixed color varieties. A trial of some of these will be rewarding.

PAY DIRT: Golden yellow, slight center markings. Very large. 15 plants \$1.00.

HARROLD'S AZURE GIANTS: The most intense azure blue Pansy with darker blue-black center blotch. 15 plants \$1.00.

HARROLD'S RUBY GIANTS: Real Ruby red. Dark center. 12 plants \$1.00.

WENDY: A beautiful porcelain blue with cunning faces. Popular. 15 plants \$1.00.

ELK'S BEAUTY: NEW THIS YEAR. A true Elk's Purple. Huge. 12 plants \$1.00.

STRAWBERRY ROSE: Velvety carmine-rose with large center blotch. A very fine deep shade. 12 plants \$1.00.

FELIX: The "Car's Whisker Pansy". Varied pastel shades with yellow centers and penciled "whiskers" radiating from the center. 10 plants \$1.00.

BLACK KING: As near a true black as Pansies ever get. 10 plants \$1.00.

SUNSET: Delightful shades of yellow, orange, red and brown. 12 plants \$1.00.

ORANGE GIANTS: Giant apricot-orange. Very desirable. 12 plants \$1.00.

RASPBERRY ROSE: Truly striking shade, large center blotch. 12 plants \$1.00.

MORE PLANTS THIS YEAR: Demand for these economy plants was so great last year that we have expanded this program four-fold this season. This means supply will be much better but we can't too strongly suggest that you order as early on these as you can, for supply is still limited. Even if you must transplant in flats and give some protection for later setting, order while stock is complete.

PANSY PLANTS Continued -

HARROLD'S CASCADE PANSIES: A new race of medium size flowers produced in great profusion on compact, well formed plants. These are a group fast becoming "the rage" because of the unique show they make. Flowers practically devoid of center marking and colors are rich and intense. A Harrold origination you must not overlook.

TOKATEE: The most unique blue Pansy ever developed. 12 plants \$1.00.
MULTNOMAH: Clear orange-apricot new to Pansies. Set with Tokatee these make a striking display. 12 plants \$1.00.
KLAMATH: Purest golden yellow Pansy. 12 plants \$1.00.
YAKIMA: Bright scarlet-red. Velvety. 12 plants \$1.00.
UMATILLA: Velvety royal-blue. Excellent. 12 plants \$1.00
CASCADE MIXTURE: Blend of the above and other shades. A very attractive color range. 15 plants \$1.00.

VIOLA and VIOLET PLANTS

VIOLAS OF MERIT: Two of these varieties are Harrold originations, the other is most useful. Their intriguing little flowers are always bright and attractive and they bloom over a long season.

AZTEC CHIEF: A striking novelty of most unique coloring. Pastel and odd shades, all with yellow centers having tiny penciled rays radiating from a yellow dot at the center. 15 plants \$1.00.
DOROTHY: Harrold's new Giant Viola origination. Extremely hardy and early blooming, these are almost as large as small Pansies. Color range is very bright. 20 plants \$1.00.
SCOTCH BEDDING MIXTURE: The finest mixture of the cornuta Violas. Much prized. 25 plants \$1.00.

SEEDS: All Separate color Pansies and Violas available, \$1.00 per pkt.

VIOLETS: We have a limited quantity of "Grandmothers" old fashion, sweet scented Violet divisions. Deep violet with a few rose pink mixed in, no selection. Nice plants. 5 for \$1.00.

PRIMROSES - Polyanthus Hybrids

Few gardeners ever have as many Polyanthus Primroses as they would like. They are one of the most showy of early spring flowers and once established make a beautiful display for years. They are probably the most colorful of early blooming plants for growth in shade or semi shade. The plants sown last summer may show a little bloom late in the season. The second year ones will show quite a bit of bloom, although they do not bloom real well until established a year.

HARROLD'S PEDIGREED GIANT MIXTURE: Varied colors of large size flowers always popular. A LIMITED QUANTITY of year old plants 4 for \$1.00. Note: A fine crop of new plants are coming along and will be available in a wide variety selection for Feb. and later shipment. Also, seeds are available in great variety.

DELPHINIUM PLANTS

Always popular, the plants we offer here were late summer sown and are nice size for moving with least amount of setback. With favorable situation and culture, in the less severely cold locations, these will continue to grow right through the winter and make a good flower crop the early season of 1962. In colder areas, carried over winter in cold frame or potted and carried in the small greenhouse, they will be ideal for spring planting outdoors.

ASTOLATE HYBRIDS: Pink shades. 4 plants \$1.00.
BLACK KNIGHT: Real dark velvety shades. 6 plants \$1.00
BLUE BIRD: Medium blue, white bee. 6 plants \$1.00.
GALAHAD: Finest pure white, light bee. 5 plants \$1.00.
GUINEVERE: Pinkish lavender with sheen. 5 plants \$1.00.
KING ARTHUR: Royal violet-blue, white bee. 5 plants \$1.00
ROUND TABLE MIXTURE: Made up from above varieties but not selected to color. 8 plants \$1.00.

PERENNIALS

Perennial plants that are hardy are always very desirable in the garden. They give a fine, seasonal display, season after season with a minimum of care and most are quite rugged. We list varieties here for their usefulness, novelty or just plain interest. A larger list will be available in February.

ACHILLEA: Milfoil, Three very attractive and interesting varieties, all a different color. These have fine, ferny foliage that is appealing and the flower heads are large, brightly colored. Up to 4 ft. high.

THE PEARL: Finest double white for cutting. 6 plants \$1.00
PARKER'S: Large heads of bronze-yellow. 6 plants \$1.00
ROSEUM: A striking rose shade. 6 plants \$1.00

WILD GINGER: An Oregon native, easily grown, long lived and a grand ground cover. Leaves large and always green. Propagates readily and establishes quickly. You'll want to try this one. 4 nice plants, \$1.00.

AMARYLLIS BELLADONA: The true Resurrection Lily. Makes a lush winter growth then in June it dies back. After foliage is gone 3 foot stems with bright pink, trumpet lily blooms appear from the bare ground. Hardy year after year. 2 bulbs, \$1.00.

PERENNIAL PLANTS Continued -

ALYSSUM: Hardy Rock Garden or border varieties. Very showy and always popular. A bright spot in any garden in early spring.
ROCK GARDEN HYBRIDS: Botanical species of varied types and forms. Supply small. 4 plants \$1.00
SAXATILE HYBRIDS: Golden yellow bush. 6 plants \$1.00
CASTLE PRIDE: A unique trailing type. Bright yellow 6 plants \$1.00

ANCHUSA: Dropmore strain. This is a fine bright blue, excellent for cutting. Grows to 5 ft. 4 plants \$1.00

ASTER: Hardy Alpine. Blue, purple and white. Flowers about 1½ in. Plants 12 to 15 inches high. 5 plants \$1.00

AUBRIETIA - Rock Cress: Large Flowered mixed. Makes a mat like plant 6 in. tall with flowers from lilac to purple. 6 plants \$1.00

BELLIS: (English Daisy) Super Enorma Variety. The largest flowered of this family. In mixed colors, mostly red, salmon and white. We will have separate colors later for spring sale. 12 plants \$1.00

CAMPANULA: Canterbury Bells. The showy cup-and-saucer form. Huge heads of large bell shaped flowers on upright stems. A fast grower and colorful. Mixed, good range of color. 5 for \$1.00

CANDYTUFT: These have always been a popular flower, especially for cutting and use in bouquets. Grows nearly anywhere.
SEMPERVIRENS: Best pure white. 3 plants \$1.00
GIBERALTARICA: Attractive violet-rose. 4 plants \$1.00

CHRYSANTHEMUMS: Korean Hybrids, 1½ to 2 ft. A splendid color range in single and semi-double flower form. Blooms in fall. 5 plants \$1.00

DIANTHUS DOUBLE GAITY: An extra choice mixture of bright colors. Makes fine borders. 6 plants \$1.00

DIGITALIS: Foxglove. 4 ft. with extra large flower spikes. Our Excelsior Strain the latest bright colors. 6 plants \$1.00

GALLARDIA: Monarch Strain. A very showy plant with lots of large flowers in red and yellow combinations. A bold grower and does well anywhere. 6 plants \$1.00

HIBISCUS: These do well in the milder climates. Huge flowers on a bold, robust plant. Many colors. 3 plants \$1.00

INCARVILLEA: Hardy Gloxinia. This is a novel and attractive plant. Of relatively easy culture it has rosy-purple flowers and plants are robust. 4 plants \$1.00

LIATRIS: Kansas Gayfeather. Long feathery flower spikes with 15 to 18 inches of flowers. Rosy-purple and the best for cut-flowers. 5 plants \$1.00

LUPINS - HARROLD'S OREGON HYBRIDS: A most showy, large flowered strain in a brilliant range of colors. Flower spikes are 2 ft. or more with base up to 6 in. across. Plants hardy and robust. Supply limited. 4 for \$1.00

MYOSOTIS - Forget-Me-Not: Very intense blue flowers on a 10 inch plant in early spring. Popular. 4 plants \$1.00

PENTSTEMON - Bearded Tongue: An attractive plant with bright flowers in an unusual color range. Flowers bell shaped and freely produced. 3 for \$1.00

PHYSALIS - Chinese Lantern Plant: An interesting novelty about 2 ft. high. Has orange-scarlet lantern like pods. 4 plants \$1.00

POPPY ORIENTALIS: The huge Oriental Poppy that is so popular. These varieties are much in demand.
ESCELSIOR MIXTURE: The popular single form. 8 plants \$1.00
OLYMPIC DOUBLE: This is a striking form. Flowers rather full. Fine color range. 6 plants \$1.00
REMBRANDT: Huge orange-scarlet. Deep base. 6 plants \$1.00
PRINCESS VICTORIA LOUISE: Salmon. 6 plants \$1.00

SCABIOSA - House's Giant Hybrids. The finest of the hardy Scabiosa. Colors from pale blue through mauve to deep blue, large and attractive. A good subject. 5 plants \$1.00

STACHYS LANATA - Rabbit's Ears: An attractive plant with fuzzy, silvery leaves. Flowers are a great attraction for Bumble Bees. An interesting plant. 5 plants \$1.00

SWEET WILLIAM: Double dwarf, good mixture. This little fellow ideal for the colorful low border and blooms early. 8 plants \$1.00

WALLFLOWER: The Biennial type. These never lost their popularity in Europe but they are not seen often in America. There is much of showyness to recommend them over the annual type and they keep coming year after year. The early spring flowering habit comes along with the earliest. The color blend of brilliant yellows, orange, red to near black makes them attractive. 8 plants \$1.00

PANSY AND OTHER SEEDS ALWAYS AVAILABLE

Prices of these remain the same and any change in market value is adjusted by the quantity of seed in a packet. You may therefore order any packet item from any pricelist sent you in the past.

WILD GINGER: An Oregon native, easily grown, long lived and a grand ground cover. Leaves large and always green. Propagates readily and establishes quickly. You'll want to try this one. 4 nice plants, \$1.00.

AMARYLLIS BELLADONA: The true Resurrection Lily. Makes a lush winter growth then in June it dies back. After foliage is gone 3 foot stems with bright pink, trumpet lily blooms appear from the bare ground. Hardy year after year. 2 bulbs, \$1.00.

HARDY PHLOX

There are few garden flowers that bring the enjoyment of Phlox. Their flowering season is long, their culture relatively easy. Being perennial, once established, they grow for several years in one place and become more showy each year. Easily divided, they can be multiplied freely until they soon develop a gorgeous display of bloom that is most attractive. Quite free of pests and diseases in most localities there is usually no amount of special work in their culture. Sprayed occasionally with your regular Rose spray, they will usually stay quite healthy.

Order soon while selections are complete and specify whether we may substitute in case the item ordered is sold out. Better still, give some second choice selections. If this information is not given, we will assume we may do this in equal or better varieties.

CLEMATIS

THE MOST
USEFUL
AND POPULAR
VINES
FOR THE
AMERICAN
GARDEN

This year, as we go to press, we have the best stock of Clematis plants that we have had for many years. Stock too is well rooted and we are shipping them in Peat Pots. It is suggested, however, that you order what you will want as early as you can as there will surely be more demand than there is plants to fill it.

We ask, due to the year after year shortages of these, that you give second choice selections to be used in case of being sold out or that you state definitely whether we have your permission to use our own judgment as to substitutions. If the latter course is not desired or second choice selections not given, please state in your order "no substitutions". We will then refund if we are sold out of the desired variety.

A leaflet on Clematis culture is sent on each order. Their culture is relatively simple and they are the most satisfactory flowering vine you can procure for your garden. We will book orders for spring

CLEMATIS PLANTS - Continued

delivery on the condition that stock remains available that long, otherwise, if no shipping date is given, we will ship at once. Where you can't set the plants outside at once they may easily be grown as a pot plant in a cool situation in the small greenhouse or flower window and set outside as early in spring as weather permits.

VARIETY	COLOR	Price Per Each	3
ARMANDI: Evergreen white		\$2.25	\$6.25

GLOXINIA

TUBERS SEEDS
AMERICA'S MOST COMPLETE SELECTION

If you like indoor pot plants here is one group you should not overlook. They also can be handled as summer porch, windowbox or patio plants with much success and enjoyment. For these purposes plant tubers now to bloom this summer.

Seeds planted now should give you some nice fall blooms and right along into the holiday season next season. Try another planting of seeds in May, June or July for a lot of color and pleasure through the winter months.

Harrold's

HARDY PRIMROSES

Primrose seeds and plants have been a major specialty with us for many years and the seeds offered here are not surpassed in quality anywhere. More complete descriptions will be found in our last Pansy Annual.

HARROLD'S PEDIGREED GIANTS: A strain of Polyanthus-veris Hybrids of our own breeding. This is the largest flowered type available today and the range of colors is outstanding. Growth is robust, disease resistant and the flower heads are massive.
BLUE SHADES: Packet, about 150 seeds, \$1.50; 3 for \$4.00.
RED SHADES: Brilliant color, giant flowers.
GOLD SHADES: Bright golden yellow.
WHITE: Cream to pure white, orange eye.
GOLD LACED: Flower edges laced with golden yellow.
Any one, these 4, \$1.25; any 3 pkts, your selection, for \$3.00.
PEDIGREED MIXED: Pkt. \$1.00; 3 pkts. \$2.50.

AURICULA: Popular Alpine type. A fine, varied color range
BULLEESIANA: Tall, orange, carmine, apricot and blue shades.
CASHMERIANA: Unique dwarf form. Lilac to purplish blue. Novel.
DENTICULATA: Globular heads shaded lilac to white.
ROSEA GRANDIFLORA: Bright rosy carmine. Dwarf plant.
JAPONICA: Choice pink, rose, cerise and white flowers.
Any one, these 6, \$1.00; any 3 pkts, your selection, for \$2.50.

A Few Personal Comments

Inventories right now are the best ever for delivery by Christmas; gifts for yourself and gardening friends. Seeds of all kinds are in good supply and more coming in every week. The Perennial Plants we list in this Gardener are in the best supply of the past ten years. The full season supply of Clematis plants are now in stock as listed but this is limited so order what you want NOW for immediate or spring delivery. A good stock of Hardy Phlox is on hand and these we can fill in as fast as present stocks move out so supply should remain good until the end of March. Gloxinias and Camellia and Carnation Tuberous Begonias are not yet in but should be available before Christmas though this can not be guaranteed due to shipping conditions trans-Atlantic. The American Hybrid Tuberous Begonias, as usual, become available around the end of January. The Grow-Lites are outstanding Christmas Gift items that are unique and enjoyable.

Our Harrold's Adventures in Gardening: We had hoped to start the new crop season off with this on a regular publication schedule. However, our Photo Lab and Lithographic Plate Shop was wrecked by wind storm last spring and so this publication schedule will remain irregular for a time yet. This present edition is printed quickly to inform you of seasonal stock now available. Another edition is being prepared and will be mailed soon. It will have the usual garden news and helps. All subscribers will receive copies as soon as ready. Also, those who have subscribed will receive the full promised number of copies AFTER we get on a more regular schedule. Those received until that time are on the house. Those who have not subscribed, send along your subscriptions so you won't be missing any.

ABOUT CATALOGUE AND GARDENING MAILINGS: If you have not ordered from us in the past two years and you still want to receive our mailings regular, it will be best that you advise us of this interest. We don't want to miss you as long as you're interested but we analyze our mailing list yearly and usually drop names where no sale is made by the end of 2 years. If you make a new request for this service, you will receive 4 editions from the request and a single sale puts your name back in the regular list again. Sorry but constantly mounting publication and postage costs make this policy necessary. We are glad to supply this FREE service so long as we know you are interested and enjoy receiving it. We hope we may continue to serve you and we thank you for your past orders, friendly interest and we hope we may serve you many times in the future.

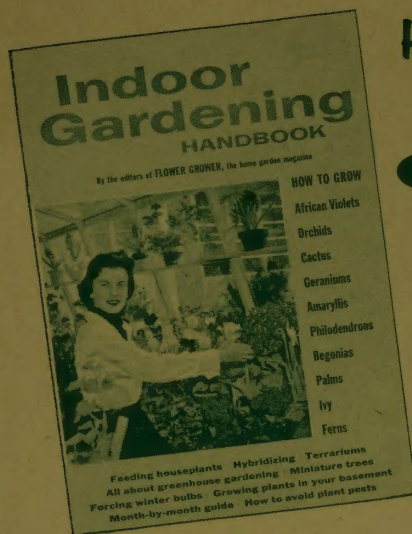

ABOUT TRANSPORTATION COSTS PLEASE READ

ALL PLANT, BULB OR TUBER ORDERS will be prepaid where amount of order is \$4.00 or more for these items.

WE DO NOT PREPAY Plant, Bulb or Tuber orders that total less than \$4.00 and on all such orders a service charge of 60¢ must be remitted with the order to help pay packing and mailing costs. This rule applies to each shipment to each address.

SEEDS ARE ALWAYS DELIVERED FREE but we service NO mail order amounting to less than \$1.00 exclusive of the service charge mentioned above.

INDOOR GARDENING HANDBOOK
BY THE EDITORS OF FLOWER GROWER MAGAZINE

Nothing is more enjoyable to the garden hobbyist than to move the pleasures of summer into the small greenhouse, flower window or any other suitable place indoors during the winter months and this kit has been designed to afford the ultimate in such enjoyment. The Book supplied FREE is one that is entirely new, up to date, and we believe it is the most valuable one of its kind to be found today. It is practical, simple, very detailed and covers the subject most completely.

THE BOOK MAY BE PURCHASED SEPARATELY FOR - \$2.50 Plus 25¢ postage

An ideal Christmas Gift for your gardening friends.

SEED VARIETIES IN THIS KIT

All are rather rare or not generally available to the small gardener and they are well adapted to a project of this kind. If you have the slightest inclination toward a "Green Thumb" this Kit is your meat. You may purchase any of the individual items offered in the Kit list below, at the list price given for each variety. Each Kit will contain one packet of each of the following varieties. (in case of shortage we will send suitable substitute variety.)

Fluorescent GROW-LITES

PRACTICAL ♦ DECORATIVE ♦ INTERESTING ♦ A REAL HOBBY PROJECT

THE HOBBY SUPREME: Fluorescent light not only will replace the best window - it does more. It provides a completely satisfactory growing situation for plants. Instead of being slanted and one sided as with a window, it may be located where it best suits your decorative motif and being directed from directly overhead it grows plants completely uniform as though they were growing out of doors. With FLUORESCENT GROW-LITES you may grow house plants in the most convenient place in your home. Where they lend the most decorative effect or even in the basement. The light is balanced and well adapted to the requirement of healthy plant growth. Always available, night or day, at the flick of a switch, they may easily set up to operate in cycle through the use of an electric time switch. Day after day - month after month, the consistency of this light source even improves on nature.

All models plug into a regular wall socket where 60 cycle - 110 volt, standard lighting current is normally available in your home. No special wiring is required as they operate the same as a table lamp would. Our lamps may be attached to a table-top or mounted on a piece of plywood and made completely portable. They are light weight but sturdy. For best of results, lamps should stay on 12 to 16 hours per day. Plants must have at the least 4 to 5 hours of darkness. Operation is inexpensive, averaging about 1¢ per tube a day. A model and size available for every situation.

ECONOMY MODEL: A very practical unit with one 20 watt tube (included), growing area 18" x 28". Leaf green or black. Price \$12.75 postpaid.

ALLOW 2 WEEKS FOR DELIVERY

FINEST ADJUSTABLE LAMPS: Both models are adjustable from 1 inch to 20 inches above the table. Each has 2 tubes. Comes in leaf green or wrought iron black - specify when ordering. **SENIOR MODEL:** 2 - 30 watt tubes (included), 20" x 44" growing area, \$24.50. **JUNIOR MODEL:** 2 - 20 watt tubes (included), 20" x 30" growing area, \$19.75. Postpaid.

NOTE: All quotations are delivered postpaid but on orders west of Denver add 50¢ per unit to price covering extra postage. Shipment is made from manufacture's plant direct to you.

HANGING LAMPS: These may be suspended over bed. Each holds 2 tubes (not included). Green only with switch, cord & plug. 40 watt double, \$17.45; 30 watt double, \$16.45; 20 watt double, \$11.45 postpaid.

EARLY SEEDLINGS Do well under these lamps. Use them for rooting cuttings. House plants ideal.

NEW MODEL: Single tube only in green. Adjustable 3" to 20" with switch, cord & plug, less tube. 20 watt size \$9.95; 30 watt size, \$10.95; 40 watt size, \$11.95 postpaid.

THE UNUSUAL, APPRECIATED GIFT. Brings hours of year-round pleasure.

GROW-LITE CLOCK CONTROL: This unit will handle up to 10 tubes of Grow-Lite. Simply plugs into the wall outlet then plug the lamps into the control. May be set for any interval of light from 15 minutes to 23 hours and 45 minutes. Controls lights on a predetermined cycle without any further attention. Delivered anywhere in U.S.A., \$12.50.

CULTURAL BOOK - GROWING PLANTS UNDER ARTIFICIAL LIGHT: By Peggie Schulz. All about artificial light culture. Tells how to install, operate and their operational cost. Also gives cultural instructions for success with 155 plant varieties easily grown under artificial light. 146 pages, case bound. \$4.00 per copy, postpaid.
